INDIANA HEALTH COVERAGE PROGRAMS BT202193 OCTOBER 14, 2021

IHCP corrects ICD-10 codes for Presumptive Eligibility for Pregnant Women

Indiana Health Coverage Programs (IHCP) *Bulletin* [BT202186](#) announced an update of the International Classification of Diseases, Tenth Revision (ICD-10) Clinical Modification (CM) diagnosis codes and Procedure Coding System (PCS) procedure codes. That publication contained an error. *BT202186* incorrectly stated that two diagnosis codes, Z91.51 – *Personal history of suicidal behavior* and Z91.52 – *Personal history of nonsuicidal self-harm*, were being added as qualifying diagnoses for coverage of services under the Presumptive Eligibility for Pregnant Women (PEPW) benefit. No diagnosis codes were added to PEPW.

The published code table for PEPW, *Presumptive Eligibility for Pregnant Women Codes* (accessible from the [Code Sets](#) page at in.gov/medicaid/providers), will be corrected to remove the codes that were added from Table 4 of *BT202186*.

This error occurred only in the IHCP publications. The codes were implemented correctly in the Core Medicaid Management Information System (*CoreMMIS*); therefore, claims will have processed correctly.
